

### CAREERS ACROSS THE CURRICULUM

Here are some more suggested exercises for careers-themed activities across subjects of the curriculum.

#### General Careers in the Curriculum Resources

You can use Start Profile to find out more about your students' careers aspirations and build it into your teaching. <https://www.startprofile.com/>

BBC Bitesize Careers <https://www.bbc.com/bitesize/careers>

Barclays LifeSkills <https://barclayslifeskills.com/educators/lessons/>

STEM Careers Toolkit [https://www.stem.org.uk/elibrary/](https://www.stem.org.uk/elibrary/collection/103798) collection/103798

STEM Learning resources [https://www.stem.org.uk/resources/](https://www.stem.org.uk/resources/collection/103798/stem-careers-toolkit) collection/103798/stem-careers-toolkit

CEGNET <http://www.cegnet.co.uk/resources/category/teaching-learning>

Good for business and construction <https://targetcareers.co.uk/parents-and-teachers/313443-resource-zone>

Careers videos and labour market information <https://icould.com/>  
<https://www.careersbox.co.uk/> (also YouTube, but use with care). Really brings jobs to life. Some videos are better than others.

University and college Outreach: Contact to see what they can provide

#### Subject links to careers

<https://www.planitplus.net/Schools/SubjectCareerList/>

<https://www.myworldofwork.co.uk/lesson-inserts> (the quals referred to are Scottish)

<https://successatschool.org/advice/subjects>

BBC Bitesize Careers <https://www.bbc.com/bitesize/careers>

The NHS has 350 careers pathways – something for every department:

<https://www.healthcareers.nhs.uk/career-planning/career-advisers-and-teachers/teaching-resources>

<https://icould.com/explore#subject>

Quick Wins for Subject areas...

### Technology

1. Research tools and equipment used by particular careers and find out how technology has changed the work of people in those careers.
2. Imagine what the jobs would be like if they existed a hundred years ago (or a hundred years in the future).
3. Examine whether such careers would be possible without technological change.

### Art and Design

1. Create marketing materials for products e.g. a billboard poster, information leaflet or TV advert.
2. Design a new product and its packaging or re-design an existing product for people to use a hundred years in the future.
3. Create a job advert or an advert promoting a company, perhaps following on from the 'My Dream Career' exercise.

### Geography

1. Work and the urban environment – investigate how work influences the kinds of buildings we find in an area or how the careers of the pupil's parents influence housing, transport and urban infrastructure in their community.
2. Contrast work undertaken in varying environments e.g. rural or agricultural settings in Africa with urban environments in Africa.
3. Run a debate where jobs and work patterns come into conflict with each other e.g. a commercial tourist development in a fishing community, or an industrial development planned to take place in rural Britain.

### History

1. Examine how the changing role of work and changing careers built the urban environment around the school? Access online documentary and archive materials to carry out a field study.
2. Contrast contemporary work with jobs that might have been done in an area 100 or 1000 years ago.
3. Use an artefact from a job of the past and play a 'Career Bluff' game to explore new words and historical careers.

### Music

1. Create pieces of music, or a sound collage, to convey the different soundscapes and aural environments associated with different rural and urban environments, jobs or activities. Consider taking field recordings to inspire the music creation.
2. Research the careers that may exist specifically within the music industry and examine the process of producing a chart hit.
