

# Digital West Midlands

## Labour Market Information

In the UK, like many other countries, we live in an increasingly online world. Digital and other tech skills are in high demand across all sectors - good news for those with the right skills, as these will open doors to lots of jobs. You may have heard of 'Silicon Canal', a cluster of companies in the area - but look a little further and there are many more companies in the area working across a wide range of sub-sectors.

## Important facts about the Digital Sector

- 1.2 million new technical and digitally skilled people needed by 2022 in the UK<sup>1</sup>.
- 90% of all jobs will require some element of digital skills within 20 years<sup>2</sup>.
- 94% of employers in this sector are small to medium enterprises<sup>3</sup>.
- Young women make up 17% of the tech workforce and are in demand.
- The number of tech and digital jobs in the West Midlands is around 84,000 and is expected to increase by 14,000 jobs by 2025<sup>1</sup>.
- 45,000 are employed in computer programming, consultancy and related activities.
- 2,500 are employed in wireless telecommunications activities.
- 1,375 are employed in data processing, hosting and related activities and web portals.

# IT Jobs Watch

## Growth Areas

• Gaming • Animation • ICT services • Cyber security • Environmental technologies • FinTech

ICT services such as cloud services, software development and data support along with creative digital sub-sectors like gaming, animation, virtual reality and digital marketing are all growing areas.

As commercial districts grow, people with Digital and ICT skills will be able to take advantage of new jobs on offer in sectors such as business, finance, IT, leisure and retail. HS2 will be coming through our region and there are opportunities for people with digital skills including digital design, digital planning, data analytics and digital construction techniques.

## Future Trends

This sector is about technology but it's about creativity too for many of the jobs. Digital communications are changing the way in which we work, particularly in sectors such as agriculture, transport and logistics. There is a growing demand in these areas:

AI (artificial intelligence) | cyber security | big data management | gaming | VFX (visual effects) | satellite technology | digital marketing | web design | computer programming | UX (user experience) | AR (augmented reality) & VR (virtual reality) | 3D animation | driverless vehicles | open data

More women in tech are desperately needed! Just 17% of people working in the tech sector are female and only one in 10 students taking A level computer science (according to the Tech Partnership).

**Some aspiring women role models in the sector include:**

Facebook COO, Sheryl Sandberg, YouTube CEO Susan Wojcicki, HP CEO Meg Whitman, IBM CEO Virginia "Ginni" Rometty, Apple Senior VP Angela Ahrendts, Oracle co-CEO Safra Catz, Alphabet CFO Ruth Porat, Ursula Burns CEO of Xerox and Yahoo CEO Marissa Mayer.

## Routes in

There are many routes into a digital or tech role but some skills are more in demand than others so it's worth doing some research, especially if you're considering a degree. Check out which courses or apprenticeships local colleges and universities offer and search for employer **apprenticeship vacancies** on [www.findapprenticeship.service.gov.uk](http://www.findapprenticeship.service.gov.uk).

The government has introduced a range of new qualifications to help address skills shortages and these include digital and cyber security apprenticeships (including degree apprenticeships) and T-levels (technical level qualifications) are due to be phased in from 2020. 95% of UK games companies are small to medium businesses with the majority employing fewer than five people – rather than relying on traditional recruitment methods, building up experience and making useful contacts could go a long way.

## Career Learning Pilot

The **Career Learning Pilot** can support you to grow your skills and boost your income. Speak to a Careers Adviser to discover the next steps towards your career goals.

Research shows that people qualified to Level 3 can earn 10% more than those without and advanced apprentices at Level 3 can earn £117,000 more over their career.\*
